Passengera	CEO Directive	Date:	14.9.2022
		Author:	J.Kolář

Environmental policy

The company's management is committed to environmental protection and declares this policy:

1. Passengera undertakes to strictly comply with all obligations resulting from legal and other requirements related to environmental protection.

2. Passengera is committed to reducing the burden on the environment by preventing pollution.

3. Passengera undertakes to reduce the production of waste and increase the proportion of its further use.

4. Passengera pays constant attention to the issue of efficient use of natural resources and energy.

5. Passengera is committed to reducing the consumption of energy and natural resources per product delivered.

6. Passengera continuously improves the activities and working conditions of our employees to minimize their negative impact on the environment.

7. Passengera uses an employee education system to increase their environmental awareness, professional knowledge, and responsibility in environmental protection.

8. Passengera enables all interested parties to access the EMS policy and information on environmental aspects and cooperates with state administration bodies.
